

Spot taping machine **KTB P**

ECONOMICAL BUNDLING PROCESS

The versatile and robust machine for spot taping, marking, fixing and insulating. The tape width and bundle diameter determine the equipment of the device, which we assemble according to your requirements.

YOUR BENEFITS

Excellent value for money

- Efficient, low-wear cutting blade system
- Low-maintenance spot taping machine with robust design and pneumatic drive
- Up to 80% lower material costs compared to heat-shrink tubing or caps

Minimal space requirements

- Very compact integration of components
- Pneumatic connection directly on the device (no control cabinet)
- All adjustments can be carried out directly on the machine

Fast and reliable

- Up to 50% less processing time compared to manual production
- Adjustment settings for up to four layers of tape
- Optimal for integration in fully automated processes

Application	bundling, fixing, insulating, marking, labeling
Tape materials	all conventional adhesive tapes
Tape width	9 – 50 mm
Tape core diameter	1.5" and 3"
Bundle diameter	3 – 40 mm
Dimensions (W×H×D)	350 × 500 × 450 mm
Weight	15 kg
